

Since **2016** EverWild LA has provided meaningful, positive experiences in nature for children and youth. Founded by 3 women, EverWild LA is led by 7 board of directors and an Executive Director that has remained in leadership since EverWild's inception.

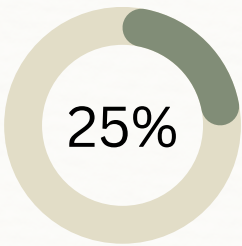

Throughout our journey we have served over 1400 students, equipped over 60 mentors with professional training opportunities, and have maintained 3 passenger vans to provide transportation from the urban areas of LA to local wildlands.

We pride ourselves on our long-standing relationships including partnerships with over 10 public charter schools and our high retention rate of participants. On average, youth attend weekly programs in nature for 5 months out of the year and 5 hours per day, in contrast to the national average of 4-7 minutes per day.

Our **2023** metrics and outcomes demonstrate that increasing youth's time in nature creates happy, healthy, nature connected youth.

Students from low-income households who received a scholarship

Number of Youth served during the school year:

125

Number of school year programs:

9
